PROFESSIONAL EXPERIENCE

Senior Android Developer | Ainsoft Tech · Islamabad, Pakistan

Jun 2023 – Present

- Architected and shipped **Fit Streak** — a Jetpack Compose gym-tracking app with custom animated workout flows, Hilt dependency injection, and offline-first Room database; achieved 4.6-star Play Store rating.
- Led end-to-end development of **Scoop Messenger**, a real-time communication platform leveraging WebRTC (video/audio) and Socket.IO, reducing average call-setup latency by 25% and sustaining a 95%+ crash-free session rate.
- Delivered **Husky VPN** and **Bot VPN** — secure tunnelling apps integrating OpenVPN/WireGuard protocols; combined installs exceeded 60K with Play Store 4.4 average rating.
- Built a high-performance **WhatsApp Status Saver / Video Downloader** suite surpassing 100K+ installs; optimised media I/O with Kotlin Coroutines + Flow, cutting UI jank by 40%.
- Integrated **Google AdMob & Google Ad Manager** across multiple utility apps, enabling a revenue stream that increased monetisation by 35% quarter-over-quarter.
- Led a team of 4 Android engineers — conducted weekly code reviews (cutting defect escape rate by 20%), introduced branch-based CI/CD via GitHub Actions, and drove team velocity improvements of 30%.
- Collaborated with product, QA, and UI/UX designers in remote-first Agile sprints, consistently shipping releases on schedule with zero P0 post-release incidents.

Android Developer | Ainsoft Tech · Islamabad, Pakistan

Mar 2021 – Jun 2023

- Developed real-time communication features (WebRTC, Socket.IO) for consumer apps serving 50K+ active users, achieving a 95% crash-free session benchmark validated via Firebase Crashlytics.
- Built and published a lightweight offline **PDF Reader** app rated 4.5 stars with 100K+ downloads; implemented custom rendering pipeline to handle large documents without OOM errors.
- Integrated Firebase Authentication, Firestore, Cloud Messaging (FCM), and Remote Config to enable personalised push campaigns that improved Day-7 retention by 18%.
- Refactored legacy Java codebases to idiomatic Kotlin + MVVM, reducing average build time by 22% and eliminating a category of NullPointerException crashes entirely.

- Earned **Stand Out Performer (2021)** and **Best Team Player (2022)** company awards for technical contributions and cross-team collaboration.

Development Team Lead | Eclairios Solutions

Jul 2020 – Mar 2021

- Managed a 5-engineer mobile team, delivering client-facing Android applications on time and within scope for international clients across the GCC and European markets.
- Introduced Agile sprint planning and retrospectives, improving sprint completion rate by 15% and shortening the release cycle from bi-monthly to bi-weekly.
- Served as primary technical point-of-contact for clients, translating business requirements into detailed engineering specifications and effort estimates.

Mobile Application Developer | Eclairios Solutions

Jan 2020 – Jul 2020

- Engineered Android applications integrating Google Maps SDK, Stripe payment gateway, Twilio SMS/voice, and RESTful APIs; delivered 3 client projects with a focus on performance and maintainability.
- Implemented automated unit tests with JUnit + Mockito, raising code coverage from 0% to 65% across core business logic modules.

Junior Android Developer | dexQuad Software House

Jan 2018 – Sep 2018

- Contributed to Android apps in Java — UI implementation, REST API integration, and bug triage — under senior mentorship, building foundational knowledge of the Android SDK and SDLC.

KEY PROJECTS & IMPACT

- Fit Streak (Gym App)

Jetpack Compose · MVVM · Room · Hilt · Kotlin Coroutines

Workout-tracking app with animated progress dashboards, offline-first architecture, and personalised streak reminders. 4.6★ rating on Play Store.
- Scoop Messenger

WebRTC · Socket.IO · Kotlin · Firebase FCM

Real-time P2P video/audio chat messenger. Reduced call-setup latency 25%; sustained 95%+ crash-free sessions across 50K+ users.
- Husky VPN / Bot VPN

OpenVPN · WireGuard · Kotlin · Jetpack

Dual-protocol VPN suite; 60K+ combined installs. Implemented kill-switch, split-tunnelling, and AES-256 encryption.
- WhatsApp Status Saver / Video Downloader

Kotlin · Coroutines · Flow · MediaStore API

Utility suite with 100K+ installs. Optimised media I/O with coroutine-based pipeline, reducing save time by 40%.
- PDF Reader

PdfRenderer · Kotlin · MVVM

Lightweight offline reader, 100K+ downloads, 4.5★. Custom page-cache strategy eliminated OOM crashes on large documents.
- Google Ads Integration

AdMob · Ad Manager · Mediation

Rolled out monetisation across 4 apps with banner, interstitial, and rewarded-ad formats; lifted revenue 35% QoQ.
